

The haunted house project!

HOW TO USE PAINT.NET
TO MAKE A SPOOKY
HAUNTED HOUSE

FIRST SPOOKY STEP

- ▶ Use Paint .net to make a spooky monster! I made a ghost!

SECOND SPOOKY STEP!

- ▶ It's easy! Go to imgur.com, and upload your picture. Then, write down the letters at the end of the address...everybody else can use them to find the same picture!
- ▶ <http://imgur.com/yeBel>
- ▶ The green part is the part to remember!
- ▶ Get everyone else's spooky monster, and put it in your UNITY PROJECT!

THE THIRD, MOST SPOOKIEST STEP!

- ▶ Add your monster into your haunted house!
- ▶ You can add other monsters, too, from the internet. Use Paint.net do give them clear backgrounds, so they are more scary!
- ▶ Add lights and SPOOKY SCRIPTS to make them move in scary ways!
